EDUCATION

Imperial College London

Masters of Engineering, Electronic and Information Engineering

- Incoming (place confirmed).

London, UK

Sept 2025 — Present

Dartford Grammar School

International Baccalaureate

- Achieved 40/45 points, with 777 at Higher Level.
- Higher Level: Mathematics AA, Physics, Computer Science.
- Standard Level: Japanese ab initio, Economics, English Literature

Dartford, UK

Sept 2023 — May 2025

EXPERIENCE

Intern

Jul 2025 — Present

Autumn (YC F24)

London, UK

- Built usage limits, allowing users to set limits on how much a product can be used, e.g: \$0.05 per chatbot message **up to 1000 chat messages**.
- Wrote Autumn's new CLI tool, allowing users to onboard onto Autumn and create/edit their pricing plans all from their code-base and their command line.
- **Pre-internship:** Rewrote Python SDK to adhere to PEP 8 and other industry conventions. Introduced AsyncIO support and wrote a server handler mountable to any ASGI app; fully compatible with the JavaScript SDK.

PROJECTS

Maintainer, autumn-py (github.com/useautumn/autumn-py)

Jun 2025 — Present

- Rewrote Autumn's (YC F24) Python SDK, equipping it with asynchronous support via aiohttp.
- Redesigned backend route to be framework agnostic. Moved away from framework specific implementations to a universal ASGI implementation, allowing the server handler to be mounted to any ASGI app.
- Documented usage both on Autumn's Mintlify and Sphinx docs.
- Maintaining for future API changes.

EXTRACURRICULAR ACTIVITIES

IRIS Big Data: ATLAS

October 2023 — Jan 2024

- Researched the Z^0 boson, writing a research poster titled: ***Finding the invariant mass of the Z^0 boson via decay product summation.***
- Presented my findings at a research conference in London.

SKILLS

- **Programming Languages:** Python, Rust, JavaScript, C/C++, HTML/CSS
- **Technologies:** React, Tailwind CSS, Git, Ubuntu Linux, Docker
